

Special products for motor vehicles

FAM ANTIFRIZ[®] EKO P

FAM ANTIFRIZ[®] EKO P is non-toxic coolant made of propylene glycol and appropriate corrosion inhibitors.

ADVANTAGES

- **Due to its non-toxicity, it is obligatory in the systems of sanitary water preparation and solar systems**
- It does not contain amines, phosphates and nitrites
- Excellent protection against all types of corrosion for all elements of the cooling system
- Efficient protection against the formation of deposits in the cooling system
- Low freezing temperature
- Good properties of heat conductivity
- Excellent elastomer compatibility

QUALITY LEVEL

SRPS H.Z.010

ASTM Standards

ASTM D 3306 / ASTM D 4985

APPLICATION

FAM ANTIFRIZ[®] EKO P is used for filling open and closed cooling systems of internal combustion engines. It can also be used in other heat transfer systems by circulation. It serves to protect cooling systems from freezing in winter and boiling in the summer period and provides perennial protection of steel and aluminum motor parts against corrosion. It contributes to better energy exchange with the heating element, scale deposits are not formed in the installation, it facilitates fluid circulation through the system and ensures smooth operation of the pumps for the transport of fluid.

TYPICAL CHARACTERISTICS

CHARACTERISTICS	FAM ANTIFRIZ[®] EKO P 100	FAM ANTIFRIZ[®] EKO P 40	METHODS
Appearance	Blue liquid	Blue liquid	Visual
Density at 20°C; g/cm ³	1.052 - 1.058	1.041 - 1.047	SRPS EN ISO 3675
Corrosion in glass; mg	Satisfactory	Satisfactory	SRPS B.Z8.056
Temperature of crystallization °C	-	-34	SRPS H.Z8.053

STORAGE

Tightly-closed containers should be protected against direct sunlight and other heat sources. All necessary instructions can be found in the Safety Data Sheet. It contains details of possible hazards, warnings and first aid measures, as well as the environmental impact and the necessary measures when storing.

PACKING

The product is packaged and delivered in plastic bottles of 1L, pails of 4L, canisters of 20L and drums of 200L.

Data are orientational, manufacturer reserves the right to make changes in order to improve product quality.
