

Solvent-based cleaner and degreaser

FAMSKIN LO®

FAMSKIN LO® is mild alkaline product for cleaning the weapons of all bore barrels. Modern production concept provides suitable chemical - physical performances.

ADVANTAGES

- It easily penetrates the layers and neutralizes acidic products of gunpowder, residues of lead, copper and tombac,
- It actively cleans the residues of black gunpowder and other harmful materials, from the weapon barrel,
- It safely cleans external wet and dirty surfaces of weapon, other metal surfaces from grime and soot.
- It is reliable product for disassembling of very dirty metal joints
- It neutralizes traces of fingerprints
- It can also be used at very low temperatures
- It protects temporarily from corrosion

QUALITY LEVEL

ISO-L-REE

SORS 7200
MIL-C-372 C

APPLICATION

The barrel should be previously cleaned with accessories for mechanical cleaning in order to remove the excess residues and lightly bound dirt.

FAMSKIN LO® should be applied to the barrel by appropriate cleaning equipment or by pouring into the barrel. The liquid should be equally distributed on complete surface of the barrel by pulling the cleaning cloth several times through the barrel. Cloths should be changed until a mirror shine of the barrel is achieved. **FAMSKIN LO®** can be used for temporary protection up to 30 days. For prolonged anticorrosion protection, anticorrosion oil **FAMCORTIL 235®** or other similar products for this application should be applied to clean surfaces.

TYPICAL CHARACTERISTICS

CHARACTERISTICS	UNITS	VALUES	METHODS
Application	-	Clear, homogeneous	Visual
Density at 20°C	g/ml	0.880	SRPS EN ISO 3675
Flash point	°C	min.60	SRPS EN ISO 2719
Water displacement and water stability	-	No corrosion and no colour change	FTMS 719B Met.3007
Ability to remove decomposition products of percussion caps	h	Minimum 120	MIL C 372C point 4.11.1.4
Synthetic sea water	h	Minimum 20	SORS 2172 Met. 23
Wet chamber	h	Minimum 200	ASTM S 1748
Residue and mobility at low temperatures	-	It must not stick and it is movable at -55°C	MIL C 372C

December, 2016

STORAGE

Store in a confined space, intended for the storage of flammable materials. Do not store at elevated temperatures, nor in places exposed to direct sunlight, nor at temperatures below 5°C. All necessary instructions can be found in the Safety Data Sheet. It contains details of possible hazards, warnings and first aid measures, as well as the environmental impact and the necessary measures when storing.

FAMSKIN LO[®] is flammable and belongs to II class of flammability.

PACKAGE

Canisters of 20 kg and tin drums of 170 kg.

Data are orientational, manufacturer reserves the right to make changes in order to improve product quality.
